## Additional Notes

① 敷地等 (Regarding the Property) (a) The property boundaries and designated camping areas are indicated on a separate document ("Property Map"). The fence surrounding the property is an electric fence for wildlife control, and it is powered by solar energy only at night. (b) The mountain to the west is part of the property up to the ridge line.

② **Villa Mountainman** is located in a mountainous area and is home to many birds and insects. While you may encounter beautiful butterflies and dragonflies, there are also many unpleasant insects, so please be cautious. Be especially careful of biting insects, particularly in the early morning and evening. Since they fly low, long pants and thick socks are effective. Please feel free to use insect repellent and other supplies provided as needed. (Please return them to their original place after use.)

③ Upon check-out, please ensure that you clean the areas you used, tidy up the bedding and linens, dispose of all trash, turn off all lights, and lock the door.
